Thank you, Lauren

Next Wednesday morning works for Cooper. If that time does not work for any of the other parties, we would be happy to consider times for the following week.

Best,

-Davon

Davon et al,

EPA is available next Tuesday morning or Wednesday morning for the discussion you suggested in your email below. If these days do not work, we are widely available Monday-Wednesday the following week (Thursday being Thanksgiving).

I officially came back from maternity leave in September, so please be sure to address any site-related communication to me in the future. Jim was monitoring the site while I was away, but he is now back in his supervisory role.

Thanks,

Lauren

Jim and Pam,

Now that the ROD is issued, we believe it would be helpful to continue our discussions with you, DEC, the Town of Salina, City of Syracuse and Onondaga County regarding the local disposal option.

As you will recall, on our last call in May, we had only just begun to broach the issue of what technical components would be required for the Town of Salina Landfill or Cooper North Landfill to be used for local disposal. Since that time, both Cooper and the Town have sent cost proposals to EPA, which, though factored into the ROD, never were expressly commented on by EPA or DEC.

In addition, we believe that continuing our discussion and gaining clarity on these key issues will help move along EPA's discussions regarding the RD/RA with all the PRPs.

If you are open to proposing a time, we can loop in the other parties for scheduling.

Best,

-Davon

Hi Davon, Since Jim is out on vacation I will reply to your question.

After the Record of Decision is signed in September, EPA will initiate negotiations with the PRPs for the performance of the remedial design and construction. Local disposal will be part of those discussions.

- Pam

Hi, Jim and Pam

Just wanted to follow-up regarding next steps for the local disposal negotiations.

Best,

-Davon

Jim and Pam –

Any update or thoughts on when you'll schedule the next call?

Thanks,

Gary P. Gengel

Jim –

Is EPA talking with NYSDEC about the (non) applicability of Subpart 360? Any sense as to when a call will be scheduled with the parties?

Thanks,

Gary P. Gengel

Subject: Lower Ley Creek: Presentation on Local Disposal Options

All,

As requested during the last call, attached is a short presentation showing the design and estimated costs for use of the North Landfill for the Ley Creek sediments. For comparison purposes, this presentation also includes the figures and costs presented in the proposal circulated by the Town of Salina on June 6.

We understand EPA will soon be scheduling a call to further discuss this matter and next steps.

Have a happy holiday,

-Davon
